

# SMD 3528 LED STRIP WARM WHITE 3000°K 240 LEDS/M DC24V 19W/M IP33 X 16.4 FT / 5 M

TSMD-16WW

## Información Técnica

	Beaming Angle	120 °
	CCT	3000 °K
	Working Current (per roll)	4000 mA
	Power consumption	19 W/m
	Lifespan	40000 Hs
	Height	0.09 in - 2.4 mm
	Width	0.32 in - 10 mm
	IP Protection	33

	LEDs #	240 LEDs/m
	Color	Warm white
	Dimmable	Yes
	Working voltage	24 V
	Brightness	2000 lm/m
	Length	16,40 ft - 5000 mm
	LED Type	SMD 3528

The Non-Waterproof SMD 3528 LED Flexible Strip comes in a roll of 5mt. It can be cut into 3-LED segments (50mm / 1.97") on the marked sections and assembled by a simple solder or you can use our connectors which are solder-less for easy installation. The installation process for these LED Strips is very easy for anyone to adhere to any clean flat surface with their peel-and-stick backing.

CE, RoHS and UL certified
